Professional Summary

Cybersecurity professional with a background in Software Engineering and expertise in SOC operations, ethical hacking, malware analysis, and vulnerability assessment. Skilled in Blue Team strategies, including incident response, threat hunting, and network defense, combined with experience in secure software development and backend engineering. Proactive and energetic, committed to safeguarding systems and leveraging technical expertise to advance in threat analysis and ethical hacking.

Education

Universidad Peruana de Ciencias Aplicadas
Pre-Grade of Software Engineering

Lima, Perú

Certifications

- **Cybersecurity Analyst Professional Certificate** — IBM
- **Certified Ethical Hacker** — CISCO
- **Cybersecurity Awareness Professional Certification (CAPC)** — CertiProf
- **Certified Sophos Engineer** — Sophos
- **Blockchain Specialization** — University at Buffalo & SUNY
- **Cloud Computing and Security** — Microsoft Azure
- **Kaspersky Industrial CyberSecurity (038.4.1)** — Kaspersky

Technical Skills

- **Cybersecurity Tools:** Burp Suite, Nessus, Maltego, Cortex, Qradar, Wazuh, Zabbix, TheHive, Lumus
- **SOC Operations:** Threat Hunting, Malware Analysis, SIEM Management, Incident Response, Soar Configuration
- **Cloud & DevOps:** Microsoft Azure, AWS, GCP, VMWare ESXi, Docker, Kubernetes, CI/CD, DevSecOps Practices
- **Web Development:** React.js, Angular, Spring Boot, ASP.NET, API development, Brokers MQ
- **Automatization:** PathUI, n8n, Python, PowerAutomate, Playbook SOAR

Professional Experience

Win Empresas

Cybersecurity Analyst N1 SOC

Lima, Perú
August 2024 - Present

- Monitor and respond to security incidents using advanced SIEM tools (Qradar, Wazuh).
- Conduct real-time threat detection, analysis, and mitigation to ensure infrastructure security.
- Develop and optimize use cases, playbooks, and automated responses for SOC operations.
- Collaborate with cross-functional teams to ensure compliance with security policies and standards.

ONG Fundación CALMA

Tech Lead

Lima, Perú
July 2024 - November 2024

- Designed and implemented scalable backend solutions to enhance organizational efficiency.
- Conducted code reviews and implemented secure coding practices to mitigate vulnerabilities.

Security Analyst Intern

May 2024 - July 2024

- Performed vulnerability assessments and supported the implementation of security controls.
- Assisted in developing risk management frameworks for organizational data protection.

Inversiones Generales Mallsan IRL

Cybersecurity Junior Analyst

Lima, Perú
April 2023 - May 2024

- Conducted proactive monitoring, vulnerability management, and incident response.
- Improved security posture by implementing effective cybersecurity policies and training.
